---

PROFESSIONAL SUMMARY

Java Backend Developer with 2+ years of experience in designing and developing scalable backend systems. Strong expertise in Spring Boot, Spring Security, and REST API development, with hands-on experience in authentication, search integration, and system monitoring. Currently working at Tata Consultancy Services, contributing to backend development and production systems.

CORE BACKEND SKILLS

Languages: Java, Ruby, SQL, HTML, CSS
Frameworks: Spring Boot, Spring MVC, Spring Security, Ruby on Rails
Backend Development: REST APIs, Microservices Basics, Authentication & Authorization (OAuth 2.0, JWT)
Databases: MySQL
Tools & Platforms: Git, GitHub, Postman, Grafana, OpenRefine
Concepts: OOP, MVC Architecture, Agile Methodology
Additional: Accessibility Testing (NVDA, axe, ARC)

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS)
Backend Developer
2023 – Present
Project: Campus Commune (Enterprise Engagement Platform)

- Developed scalable backend features using Ruby on Rails, following MVC architecture principles applicable to Spring Boot design patterns.
- Designed and implemented RESTful APIs for modules such as blogs, challenges, polls, and surveys.
- Implemented secure authentication using OAuth 2.0, aligning with modern Spring Security practices.
- Built search functionality to enhance user experience and improve data retrieval efficiency.
- Collaborated in Agile development cycles, contributing to sprint planning, development, and delivery.
- Used Git/GitHub for version control, code reviews, and collaborative development workflows.
- Supported UAT, debugging, and production deployment, ensuring system stability and performance.
- Monitored application performance using Grafana dashboards and improved observability.
- Performed data preprocessing and transformation using OpenRefine for better data integrity.
- Ensured accessibility compliance using tools like axe DevTools and NVDA.

PROJECTS Student Management System (Spring Boot | Java | MySQL)

Designed and developed a backend system using Spring Boot.
Implemented Spring Security for authentication and authorization.
Integrated Elasticsearch for full-text search.
Developed REST APIs and used JPA/Hibernate for persistence.

EDUCATION

B.Tech (EEE) – Vignan Institute of Engineering for Women, Visakhapatnam (2022)
