Kotana Jyothi

Backend Developer | Email: jyothikotana88@gmail.com | Phone: 6302417476| LinkedIn: www.linkedin.com/in/kotana-jyothi-1b142121b |GitHub: KotanaJyothi2000 (Jyothi Kotana) | Location: Chennai (Open to Remote/Vizag roles)

PROFESSIONAL SUMMARY

Methodical and detail-oriented backend developer with hands-on experience in building scalable web applications using Ruby on Rails, MySQL, and real-time monitoring tools like Grafana. Currently working at Tata Consultancy Services (TCS), contributing to the development of robust backend systems and clean, maintainable architectures. Actively transitioning into Java backend development with Spring Boot, with a strong passion for designing efficient APIs, implementing secure authentication, and streamlining development workflows. Adept in Agile methodologies, collaborative problem-solving, and version control with Git, and eager to apply expertise in Java/Spring Boot to build high-performance systems.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) – Backend Developer

Project: TCS In-house Application (Campus Commune) | Duration: 2023 – Present

Technologies: Ruby on Rails, OAuth, GitHub, Agile, Accessibility Testing, Grafana, OpenRefine

Worked on a large-scale **student and TCS engagement portal** designed to connect students with the organization through interactive features and collaborative modules.

Key Contributions:

- **Module Development:** Designed and developed backend modules for blog posts, challenges, polls, and surveys, improving student engagement and interaction with the platform.
- **Authentication:** Implemented **OAuth 2.0 authentication** to provide secure login and seamless access to portal features.
- **Search Functionality:** Built a **search engine module** to enable full-profile search, enhancing content discoverability.
- **Agile Delivery:** Participated in Agile ceremonies (daily stand-ups, sprint planning, retrospectives) ensuring on-time delivery of features.
- **Version Control & Collaboration:** Used **Git/GitHub** for repository management, branch creation, merging, code reviews, and defect fixes.

- **Defect Management & UAT:** Worked on bug fixing, defect resolution, and supported **User Acceptance Testing (UAT)** and deployment to production environments.
- **Accessibility Testing:** Conducted accessibility validation using tools like CCA, axe DevTools, ARC Toolkit, NVDA, and keyboard navigation to ensure compliance with accessibility standards.
- **Monitoring & Analytics:** Created and maintained dashboards in **Grafana** to track portal usage and system performance.
- **Data Cleansing:** Processed and clustered large sets of inconsistent college data entries using **OpenRefine** for reliable data representation.

TECHNICAL SKILLS

- Languages: Java, Ruby, HTML, CSS
- Frameworks & Tools: Ruby on Rails, Spring Boot, REST API, Git, Postman, Open Refine, Grafana
- IDE & Editors: IntelliJ IDEA, VS Code, Eclipse
- Accessibility Testing Tools: axe, NVDA, CCA, ARC, Keyboard Navigation
- Databases: MySQL

PROJECTS

Java / Spring Boot Projects-

- **Student Management System –** Developed a Spring Boot + Thymeleaf application implementing full CRUD operations, file upload feature, and MySQL integration. Added advanced functionalities including full-text search with Elasticsearch and authentication/authorization using Spring Security.

- **Personal Portfolio Website –** Built a responsive portfolio website using HTML and CSS to showcase projects and technical skills. Planned integration with LinkedIn and GitHub for live project links.

EDUCATION

Vignan Institute of Engineering for Women, Visakhapatnam

Bachelor of Technology in Electrical and Electronics Engineering (EEE)

Graduated: 2022
